Contents of volume 29

October 2003 (Volume 29, Numbers 1–2)

On the calculation of wave climate for offshore cage culture site selection: a case study in Tenerife (Canary Islands)
O.M. Pérez, T.C. Telfer and L.G. Ross (Stirling, UK) 1

Evaluation of chemical coagulation–flocculation aids for the removal of suspended solids and phosphorus from intensive recirculating aquaculture effluent discharge
J.M. Ebeling (Shepherdstown, WV, USA), P.L. Sibrell (Kearneysville, WV, USA), S.R. Ogden and S.T. Summerfelt (Shepherdstown, WV, USA) . . . 23

Use of treated mine water for rainbow trout (*Oncorhynchus mykiss*) culture–a preliminary assessment
R.C. Viadero, Jr and A.E. Tierney (Morgantown, WV, USA) 43

Short communication

Shape change during the growth of sharpsnout seabream reared under different conditions in a fish farm of the southern Tyrrhenian Sea
E. Favaloro and A. Mazzola (Palermo, Italy) 57

AES Application Form 65

Guide for Authors 69

December 2003 (Volume 29, Numbers 3–4)

Publisher's note iii

Filtering *Myxobolus cerebralis* Triactinomyxons from contaminated water using rapid sand filtration
R.E. Arndt and E.J. Wagner (Logan, UT, USA) 77

Growth and reproductive performance of broodstock shrimp reared in a biosecure recirculating aquaculture system versus a flow-through pond
C.A. Otoshi, S.M. Arce and S.M. Moss (Waimanalo, HI, USA) 93

Accuracy of a machine-vision pellet detection system
K.D. Parsonage and R.J. Petrell (Vancouver, Canada) 109

Impact of ozonation on water quality in marine recirculation systems
M.S. Tango and G.A. Gagnon (Halifax, Canada) 125

Performance of plastic biofilter media with different configuration in a water recirculation system for the culture of Nile tilapia (*Oreochromis niloticus*)
Y.S. Al-Hafedh, A. Alam and M. Afaque Alam (Riyadh, Saudi Arabia) . . 139

doi:10.1016/S0144-8609(03)00097-9

Mass production of microalgae in six commercial shrimp hatcheries of the Mexican northwest
J.A. López Elías (Colima, Mexico), D. Voltolina, C.O. Chavira Ortega, B.B. Rodríguez Rodríguez, L.M. Sáenz Gaxiola (Mazatlán, Mexico), B. Cordero Esquivel (Ensenada, Mexico) and M. Nieves (Mazatlán, Mexico) 155
Performance of a closed recirculating system with foam separation, nitrification and denitrification units for intensive culture of eel: towards zero emission
Y. Suzuki, T. Maruyama, H. Numata, H. Sato (Miyazaki, Japan) and M. Asakawa (Kumamoto, Japan) 165

Erratum
Erratum to "Empirical relationship between conventionally determined pH and in situ values in waterlogged soils". [Aquacultural Engineering 27 (2003) 1–8]
G. Ritvo, Y. Avnimelech and M. Kochba (Haifa, Israel) 183

AES Application Form 185
Contents of volume 29 189

(Contents continued on page 191)

Performance of a closed recirculating system with foam separation, nitrification and denitrification units for intensive culture of eel: towards zero emission
